Unique academy offers cutting-edge metaphysical education and graduate training for teacher certification and students of all levels.

October 2009, Victoria BC – The International Metaphysical Academy, the North American division of the Metaphysische Akademie headquartered in Laxenburg, Austria, announces its grand opening celebration in Victoria on Sunday, October 4, 2009 at the Church of Truth, 111 Superior Street in James Bay from 2:00 p.m. to 4:00 p.m. The Academy invites spiritual students and seekers of all levels and interests to learn more about the Academy and its offerings and share in a free afternoon of live music and spiritual education. Formal address and entertainment will begin at 2:30 p.m.

Headed by Anneli Driessen, PhD, PhD, MCC, the International Metaphysical Academy began in Victoria in 1995. It is a fast-growing, non-denominational and non-political metaphysical academy offering cutting-edge metaphysical education and universal knowledge. The Academy offers mentoring, counselling and coaching services for individuals, groups and children such as Indigos and Crystals. Its focus is on supporting, educating and facilitating the personal and spiritual advancement of those who sincerely seek knowledge, inner contentment and meaning. It encourages individual thinking and accountability and assists people in applying acquired knowledge to their real life issues.

One of the Academy's key goals is to strengthen an individual's ability to discern between spiritual hype and information that is of real value. It is grounded in universal knowledge with hands-on application to everyday challenges.

Module One, the first year program of the International Metaphysical Academy's curriculum, addresses a wide range of topics including secrets of life and the universe, basic knowledge about death and the transition process, aspects of the soul including soul constellations, families and polarity, spirit possessions and releasement practices, consciousness expansion and its application in everyday life, the difference between the spirit and the soul, the eight levels of consciousness, recognition and learning processes, how to acquire enlightenment and soul advancement and the purpose of faith.

"We look forward to helping our students gain insight into mankind's most profound questions – Who am I? Where did I come from? What is the meaning of life?" says Dr. Driessen. "This Academy is not the typical spiritual hype or meant to be an entertaining, spiritual 'high'. It's exceptional, unparalleled spiritual information not available anywhere else on this continent."
